

Nondumiso Nkosi

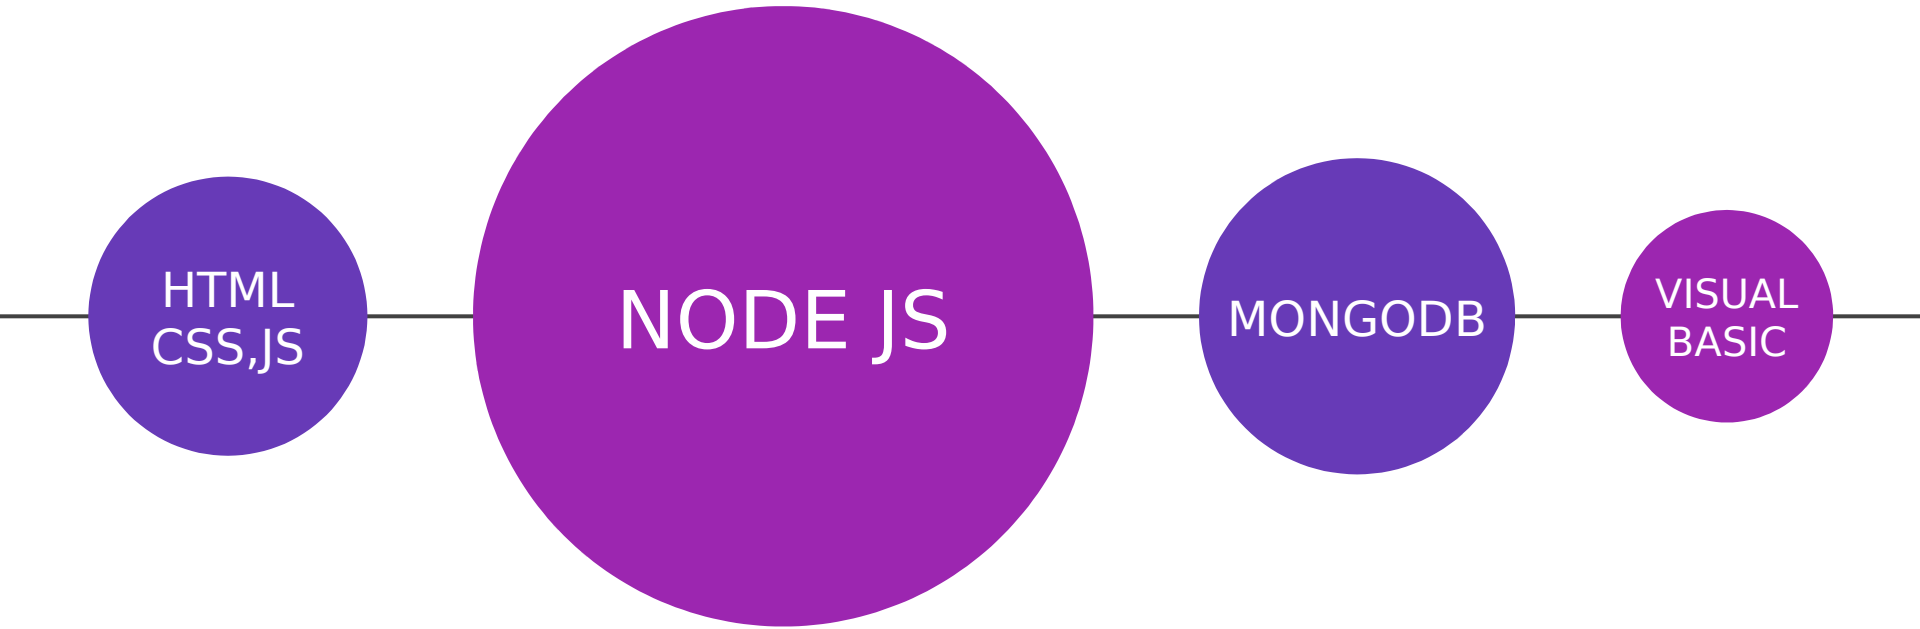

Full stack developer

About Nondumiso

— — —

Nondumiso is passionate about building great products that make people's lives easier. She personally believes that every problem has a solution, be it big or small if you are willing to give it your all you will win! She is observant and curious. She enjoys work that challenges her to learn new things that stretch her in a different and fresh direction. She does her best to stay on top and make sure that she gains more skills and becomes more productive.

Skills & expertise

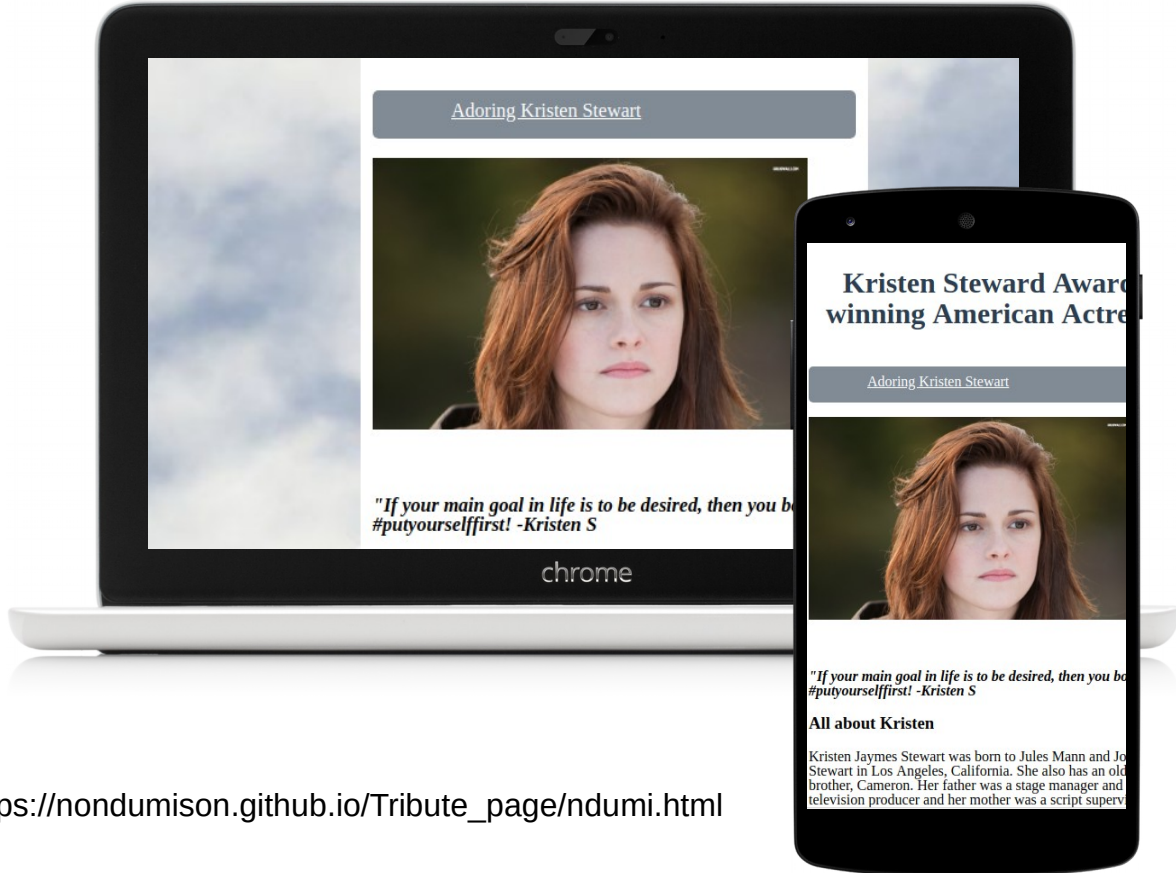

My Work

TRIBUTE PAGE

— — —

I was given a brief on developing a tribute page on my personal icon.

My tribute page is about an American actress Kristen Stewart.

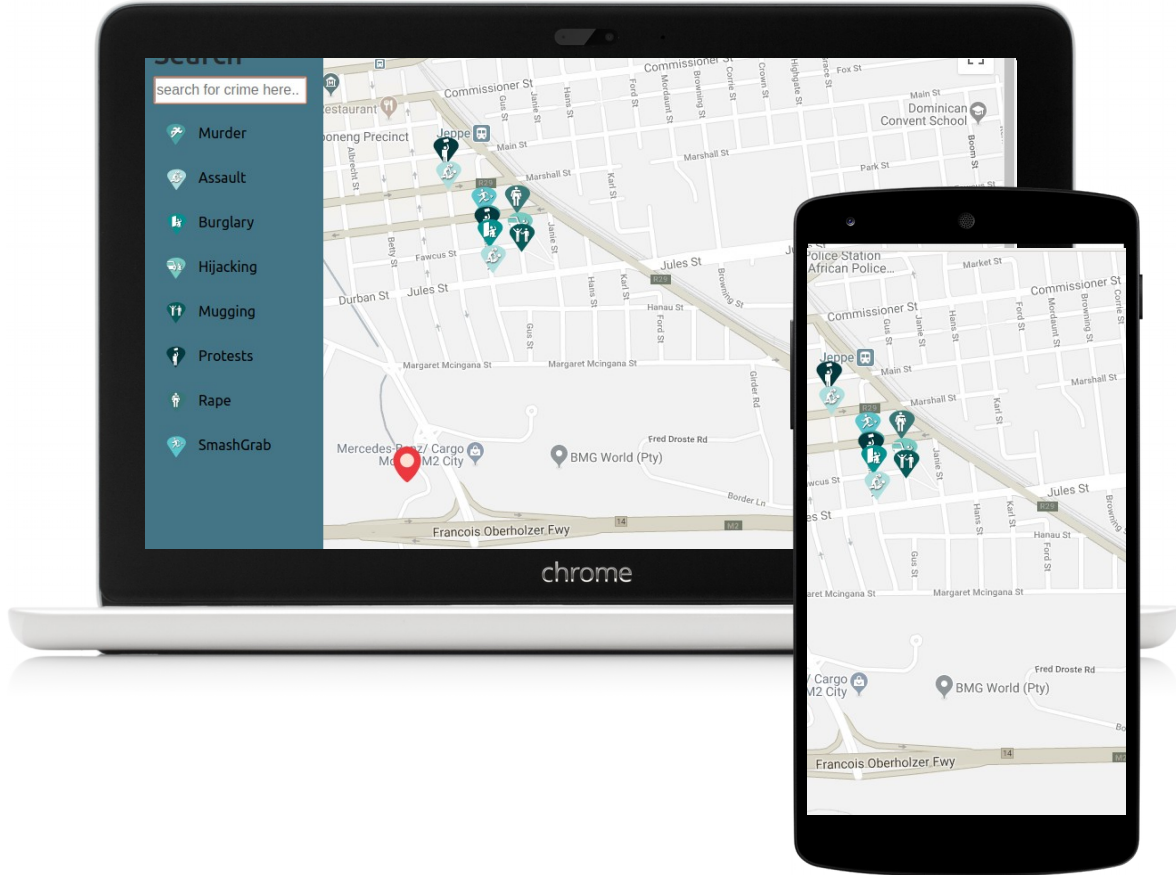

https://nondumison.github.io/Tribute_page/ndumi.html

CRIME MAP

Crime map is an app that I am working on at umuzi with three team members including my manager.

Crime map is basically an app that notifies you when entering dangerous zones, show you the types of crime that happened in that area and help you report crime faster.

GAME

— — —

This is my first game I developed.

It is a racing game where you collect coins to earn points.

I developed this game using Phaser3.

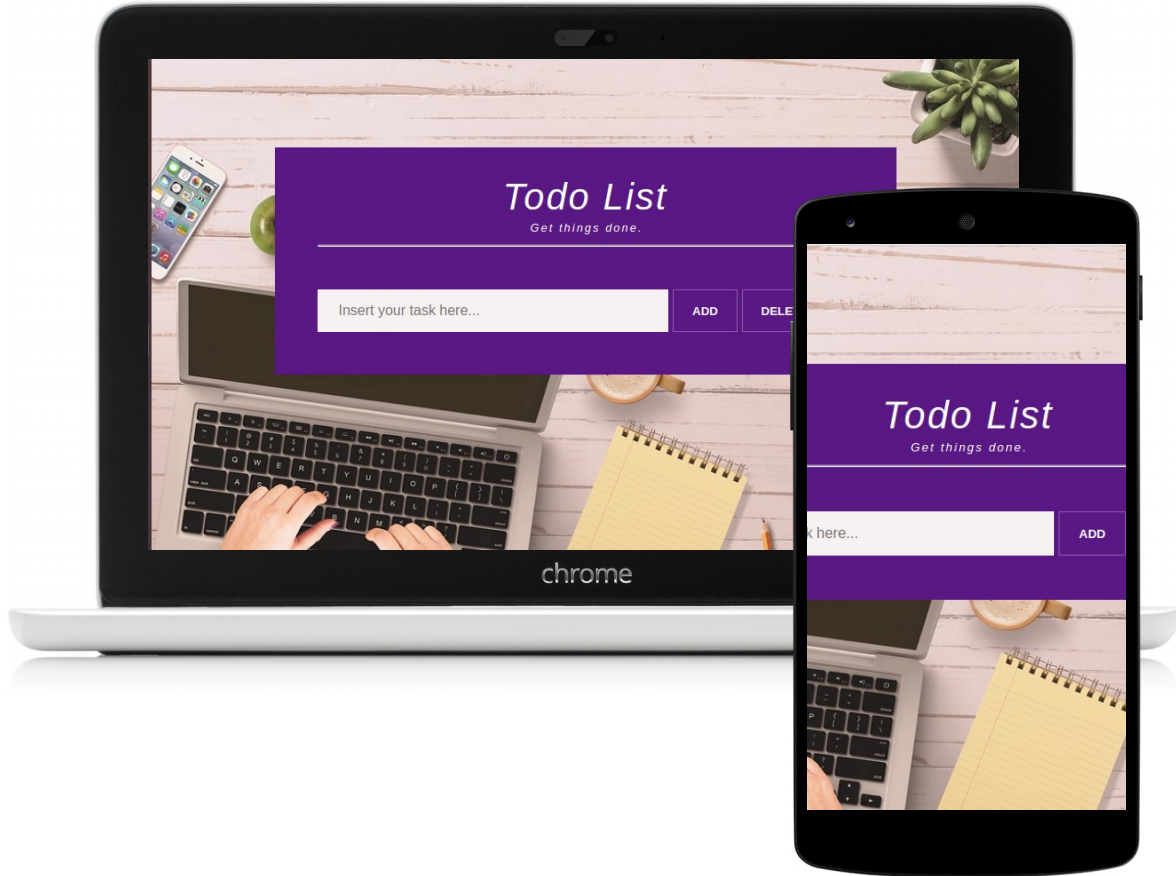

TO-DO LIST

— — —

ToDo List is basically a goal management and tasks tracking tool.

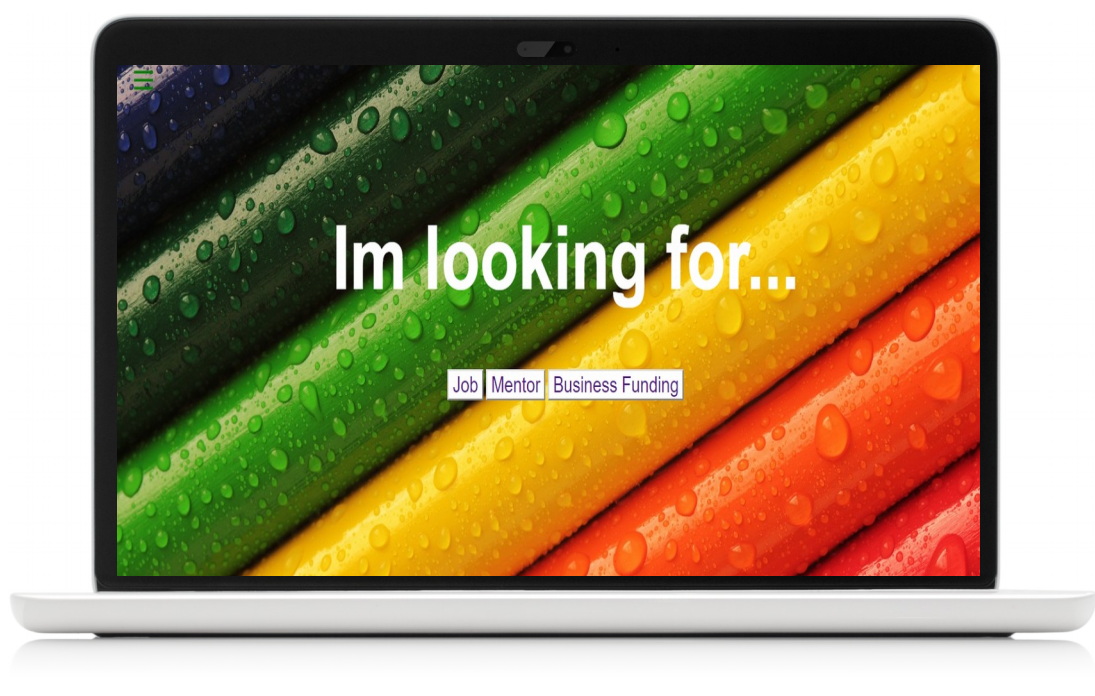

I developed this app using nodejs.

Stokvel App

Stokvel app is a financial management tool for stokvels. Stokvels can chat to financial adviser and see transactions.

Business App

Business app is a central hub for businesses to collaborate and manage funds.
